

Supplementary Materials

S1. *Cannabis use statistics in the general Canadian population (Health Canada, 2022) and in the present inpatient sample.*

	National	Inpatient Sample
	X^1	$X \pm SD$
Days cannabis use (monthly)	14.2 ²	16.2 \pm 11.4 ³
Age of first use (years)	20.5 ⁴	14.1 \pm 2.58 ³

1. Standard deviation not available for national statistics. 2. Within those reporting past-30-day use at the time of survey completion; 52% of past-year cannabis users reported 3 days or less in a typical month. 3. Within those reporting at least 1 day of use in a typical month. 4. Within past year cannabis users. SD = standard deviation.
